4 If your system is plugged in and connected select "Yes" to continue.

Otherwise select "Not Sure?" at the bottom of the screen and skip to steps 4a-4e on the back page to get things connected.

9:41

Step 2 of 3
Scan Device

Plug in your new device and scan the QR code to continue:

Issue scanning?

5 Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.) Point your camera at the QR Code found on the bottom of your BLAST System, or on the sticker that came in your box (example shown below).

Select OK. After you select "Submit", you may be asked to enter your account number.

Default Settings
SSID: CXNK001870CD
ONU MAC: 000631B41844
Security Type: WPA2.AES
WPA Key: 84f1415608b2cb13
IP Address: 192.168.1.1
User/Password: admin/3f7b1e66

9:41

Step 3 of 3
Setup Wi-Fi

if you are replacing a router, make sure to use the same Network Name and Password

Network Name (SSID)
Jamie's W

Password

Done

Q W E R T Y U I O P
A S D F G H J K L
Z X C V B N M

6 **Note: If your system is already operating with Wi-Fi, tap the "Click here to skip" text.** Make sure you are connected to the Wi-Fi network on your device before you "Click here to skip".

Otherwise, complete these steps to set-up your Wi-Fi.

Name your network and create a password.

- The Router Name will be used throughout the app.
- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network, if you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router.

Step 3 of 3
Setup Wi-Fi

if you are replacing a router, make sure to use the same Network Name and Password

Setup Complete

OK

WPA - WPA2-Personal

Place (Optional)
In what place is this equipment located in your home?

Office, Living Room, etc.

Click Submit and you're all done!
